This is my attitude to 5G connectivity and the regulatory measures to enforce it. There are over 30,000 articles and peer reviewed studies which prove the harmful link between EMF/radiation and cancer, DNA damage, respiratory problems, immune system damage. And more than 6000 Scientific Summaries on the German EMF-portal alone. If you research medical data, no one is saying this is safe. The only people who say it's safe are the Big Tech companies selling the product and fake data. If you are relying on the ICNIRP Guidelines that Big Tech are using, then you'll find their research is very outdated and has been proven to be flawed. ICNIRP are funded by the Big Tech companies with a massive conflict of interest.

There are some articles relating to safety here: https://www.saferemr.com

There are may scientists calling for a moratorium here: Appeal of scientists etc https://www.5gspaceappeal.org/the-appeal?fbclid=IwAR1CF4qgW-rEwQk4eOBPqXh2_O8-KuGofK9PM5ejL5QeLA-0ZvwFXhZOagA
